**Additament to the Programme of the international competition for ideas for a new cycling and pedestrian bridge over the 2ª circular in Lisbon - Portugal**

1. Due to the fact we have received several solicitations by other professionals, non architects, wishing to participate in this competition for ideas, the promoter has decided to open the competition to all Engineers in possession of a valid membership on their Professional Association, enabling them to participate as submission coordinators.

Therefore, the coordinator should be a registered Architect or Engineer, in possession of a valid membership of the Portuguese Architectural Association or the Portuguese Engineering Association, respectively, OR a similar professional association in the respective country, who should not be associated with and/or be a family relation to any member of the Jury.

We also remember that a document outlining all team members should be submitted, signed by the coordinator of the submission, with a telephone contact number(s) and the identification code present in the application.

2. Due to this change, and to assure equal opportunities to all participants, the promoters have decided to extend the submission deadline until October 2nd 2009.

3. Any participant who has already sent his submission is free to review it and send any change he desires, until the end of the extended deadline, given they inform Experimenta of their intention.

4. Jury members in conformity with the point VI of the Regulation:

AMANDA LEVETE, architect invited by Galp Energia and EXD'09, Chairperson of the Jury

JOÃO BELO RODEIA, President of the Portuguese Architectural Association
